

## STACK & STORE CABINET MEZZANINE

The Stack & Store Cabinet Mezzanine is a turnkey solution that provides more storage capacity in the same floor space. Using R Heavy-Duty Cabinets, the Stack & Store storage system comprises two levels that are easy to access via stairs and a floor installed over the first level of cabinets.

See [pages 278-279](#) for more details.

## R-GO MOTORIZED TOOLBOXES AND PLATFORMS

Designed for safe and effortless transportation of heavy loads, R-Go products make light work of moving parts and tools. Ergonomic and safe, they can also help to reduce injuries and musculoskeletal disorders (MSDs).

Learn more on [pages 86-97](#).

## R2V VERTICAL STORAGE

The R2V Vertical Drawer System helps you to maximize use of the vertical space you have available. It eliminates the hard-to-reach areas found in traditional shelf storage.

Find out more on [pages 76-85](#).

## GROOVE TRAYS

Made of durable aluminum, our new groove trays are more rigid and provide more storage space.

Learn more about the new groove trays on [pages 257 and 289](#), and explore some preconfigured models that feature them on [pages 208-210](#) (MultiTek Cart) and [236-253](#) (modular drawers).

## CABINET FOR TWO USERS

This option provides separate and secure locking for two users. It is available for multi-drawer cabinets and the R2V storage system.

Explore the options on [pages 294-295](#).
