BENDING TOOL STORAGE

Rousseau's bending tool storage system has been designed to provide maximum protection for your punches and dies while offering optimal and ergonomic storage.

Our storage solutions have been engineered for the tools you use, and they take into account the management methods used for storing and transporting them within your company. Our range of solutions are compatible with multiple tool styles: American, European, Wilson WT, Wila NS, Trumpf and more.

Whether you use a system where the tools are stored in a central store then allocated based on the daily production schedule, or each press brake has a toolbox containing the punches and dies needed for specific tasks, we are sure you will find a Rousseau storage solution that meets your needs.

VTZ CABINETS FOR BENDING TOOLS

With VTZ (Vertical Tool Zone) Vertical Storage, you can store many different tools in a relatively small floor area.

The shelves can be adjusted vertically in 3/4" increments c/c to accommodate the height of your tools. They can also support a load of 250lb. Each of the drawers features a floor rolling system that supports a 1,000lb. load in total.

For tool storage, the drawers include a universal tray (flat) and/or adjustable tray (upright). Extra trays can be added as needed.

NOTES: The width of your tools determines the depth of the VTZ cabinet to choose.

Refer to the icon  for the usable dimensions you will have for your tools.

Leave sufficient space for gripping your tools. We recommend 1 1/2" on either side of the tool.

TOOL TRAYS

Universal tray

- For storing punches and dies flat.
- 4 3/16"W surface in the center for storing tools.
- Can be used to store a variety of items.

Adjustable trays

- For storing punches and dies upright.
- Can be adjusted to accommodate most tool tangs.
- Includes a fixed central part and two adjustable parts on the sides. The position of the adjustable parts can be adjusted along the width (0.500" to 0.787") based on the tools stored by loosening the screws.
- Includes perforations in the center where the tools middle section can be clipped in if needed.
- Two versions available:
 - o 10 (1.0) : Recommended for American-type tools. Hollow depth: 1.030"
 - o 15 (1.5) : Recommended for European, Wilson WT, Wila NS, Trumpf type tools. Hollow depth: 1.468"

R CABINETS FOR BENDING TOOLS

The tools used for bending sheet metal are heavy and come in many different shapes. To store them regardless of their shape, size or weight, we offer a reinforced tool drawer fitted with a structural partition. Extra structural partitions can be added as needed to increase the number of subdivisions inside the drawer (see page 14).

To add a top, see page 11.

			
	30"	25½"	
	36"	31½"	
	42"	37½"	400 lb
	48"	43½"	
	54"	49½"	

LIFETIME WARRANTY

The Rousseau drawer rolling mechanism is covered by a lifetime warranty.

PRECONFIGURED CABINET OPTIONS:

- Tool drawers

- Tool drawers and a standard general-purpose drawer at the bottom

NOTES : The usable height of each drawer is 1" inch less than its nominal height.

The width of your tools determines the width of the cabinet to choose.

Refer to the icon  for the usable dimensions you will have for your tools.

Leave sufficient space for gripping your tools.

We recommend 1 ½" on either side of the tool.

CHANGE CART

Change carts are used for a specific purpose. They are the link between the central store and tool cabinets, which are located next to press brakes, so the cabinets can be filled and emptied on a daily basis.

They have a wider wheelbase at the front of the cart to ensure perfect stability. The cart top has a tool tray and laminated hardwood top for easy tool preparation.

Two versions available  :

- 02 (1.0) : Recommended for American-type tools.
Hollow depth: 1.030".
- 01 (1.5) : Recommended for European, Wilson WT, Wila NS, Trumpf type tools. Hollow depth: 1.468".

NOTES: Refer to technical guide N55 to determine the tray best suited to your tool type.

The usable height of each drawer is 1" inch less than its nominal height.

Refer to the icon  for the usable dimensions you will have for your tools.

Leave sufficient space for gripping your tools.

Must be cut with a utility knife

ADJUSTABLE BENDING TOOL TRAYS

Stores punches and dies upright.

Can be adjusted to accommodate most tool tangs.

Includes a fixed central part and two adjustable parts on the sides. The position of the adjustable parts can be adjusted along the width (0.500" to 0.787") based on the tools stored by loosening the screws.

Includes perforations in the center where the tools middle section can be clipped in if needed.

Sits in the bottom of Rousseau heavy-duty drawers (RF31/RF32/RF62).

Multiple widths and depths are available so trays can be added to an existing Rousseau cabinet.

Two versions available:

- 10 (1.0) : Recommended for American-type tools. Hollow depth: 1.030".
- 15 (1.5) : Recommended for European, Wilson WT, Wila NS, Trumpf type tools. Hollow depth: 1.468".

NOTES: Refer to technical guide N55 to determine the tray best suited to your tool type.

The usable height of each drawer is 1" inch less than its nominal height.

Refer to the icon  for the usable dimensions you will have for your tools.

Leave sufficient space for gripping your tools.

STATIONARY CABINETS

Rousseau's modular cabinets boast a heavy-duty and distinctive design that is ideal for all environments. They are market-leading products thanks to the wide range of dimensions and accessories available, their modular design and, above all, their durability. The drawers have a load capacity of 400lb. each and can be opened to full extension.

LIFETIME WARRANTY
The Rousseau drawer rolling mechanism is covered by a lifetime warranty.

MOBILE CABINET

Rousseau's R Heavy-Duty Mobile Cabinet is one of the safest and most secure on the market. The integrated lock-in mechanism activates with just one hand. With a simple upward movement with just one hand on one of the drawer's ergonomic handles, the drawer opens with incredible ease.

Fitted with high-quality, resistant casters, it has been designed for intensive use in harsh work environments.

LIFETIME WARRANTY

The Rousseau drawer rolling mechanism is covered by a lifetime warranty.
